

First P.B.B.Sc. Nursing Examination, Summer 2014
NUTRITION AND DIETETICS

Duration : Section A + B + C = 2 Hours

Section B & C Marks : 28

SECTION – B and SECTION – C

- Instructions :
- 1) Use blue/black ball point pen only.
 - 2) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) All questions are compulsory.
 - 4) The number to the right indicates full marks.
 - 5) Draw diagrams wherever necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question Paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any Question Paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answer book for all Sections.

SECTION – B

(16 Marks)

Answer the following (any four out of five) :

(4×4=16)

- a) Functions of calcium.
- b) Integrated Child Development Services Scheme.
- c) Nutrition during pregnancy.
- d) Methods of food preservations.
- e) Functions of lipids.

SECTION – C

(12 Marks)

- a) Long Answer Questions :
 - i) List the forms of protein energy malnutrition. Enumerate their clinical features.
 - ii) Describe the preventive measures for prevention of PEM in the community.

(1×12=12)

OR

- b) Long Answer Questions :
 - i) Explain the functions of carbohydrates.
 - ii) Describe the various methods of assessment of nutritional status.

(1×12=12)

First P.B. B.Sc. Nursing Examination, Summer 2016
NUTRITION AND DIETETICS

Total Duration : Section A+B = 2 Hours

Total Marks : 35

- Instructions:**
- 1) Use **blue/black ball point pen** only.
 - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All questions are compulsory.**
 - 4) The number to the **right** indicates **full marks**.
 - 5) Draw diagrams **wherever necessary**.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) Use a common answerbook for all sections.

SECTION "A" (25 Marks)

1. Short answer question (any five out of six) :

(5x5=25)

- a) Dietary requirement of a premature baby.
- b) Food hygiene.
- c) Methods of Food preservation.
- d) Mid-Day Meal Program.
- e) Nutritional needs during pregnancy.
- f) Problems in feeding sick child.

SECTION "B" (10 Marks)

2. Long answer question (any one out of two) :

(1x10=10)

- a) List National Nutritional Programs and explain any one programme in detail.
- b) Describe therapeutic diet for a patient with diabetes Mellitus.

First Year B. Sc. in Nursing (Post Basic) Examination
(Old Course)

BIOCHEMISTRY AND BIOPHYSICS

Time : 2½ Hours]

[Max. Marks : 60]

Instructions :—

- (1) All questions are compulsory.
- (2) Number to the right indicates full marks.
- (3) Draw neat diagrams, wherever necessary.
- (4) Answer each section in the separate answer sheet wherein different subject.
- (5) Use single answer book for answering both sections.

SECTION B

(Biochemistry)

1. L. A. Q. (Compulsory Question) :—
Describe Tricarboxylic Acid cycle (TCA) with energetics and its significance. 10.

2. B. A. Q. (Any four out of five) :—
 - (a) Enlist causes of Dehydration. 2
 - (b) Gluconeogenesis-Fate of glucose. 2
 - (c) State three major types of RNA. Give their functions. 2
 - (d) Define lipids, classify lipids with suitable examples. 2
 - (e) Enlist essential amino acids. 2

3. S. A. Q. (Any three out of six) :—
 - (a) Define proteins, classify proteins with suitable examples. 4
 - (b) Lipoproteins. 4
 - (c) Glucose tolerance test. 4
 - (d) Define Enzymes. Write clinical applications of enzyme. 4

Contd.

SECTION C

(Biophysics)

1. L. A. Q. (Attend any one out of two) :—
 - (a) Describe Gravity. Write applications of gravity in nursing.
 - (b) Waterseal drainage and its uses.

2. B. A. Q. (Attend any four out of five) :—
 - (a) Define Atom.
 - (b) Define pressure.
 - (c) Define force.
 - (d) Define calorie.
 - (e) Define viscosity.

3. S. A. Q. (Attend any three out of four) :—
 - (a) Write about Newton's Laws of motion.
 - (b) Archimedis principle and its application in Health science.
 - (c) Methods of reducing friction.
 - (d) Write briefly about thermometer.

HDK - 5942

First Year B. Sc. in Nursing (Post Basic) Examination
(Old Course)

PSYCHOLOGY

Time : $2\frac{1}{2}$ Hours]

[Max. Marks : 60

Instructions :—

- (1) All questions are compulsory.
- (2) Number to the right indicates full marks.
- (3) Draw neat diagrams, wherever necessary.
- (4) Answer each section in the separate answer sheet wherein different subject.
- (5) Use single answer book for answering both sections.

SECTION B

L. A. Q. (Compulsory Question) :—

Discuss the concept of Individual difference in abilities and intelligence. Write its role and implication in nursing care.

10

L. A. Q. (Any one out of two) :—

- (a) Define perception. Write the characteristics of normal and abnormal perception.
- (b) What is memory ? Discuss the factors affecting memory of a sick person with suitable example.

10

10

B. A. Q. (Any eight out of nine) :—

- (a) Define attitude.
- (b) Define learning.
- (c) Observation method.
- (d) Avoidance-avoidance conflict.
- (e) Repression.

2

2

2

2

2

- (f) Define personality.
- (g) Define sensation.
- (h) Define forgetting.
- (i) Define Mental Health.

4. S. A. Q. (Any six out of seven) :—

- (a) Psychological aspects of Nursing.
- (b) Relationship between frustration and conflict.
- (c) Development of attitude.
- (d) Concept of mental hygiene.
- (e) Types and nature of motivation.
- (f) Law's of learning.
- (g) Assessment of personality and its importance in Nursing Care.

First P.B. B.Sc. Nursing Examination, June/July 2006
PSYCHOLOGY

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

- Instructions:
- 1) All questions are compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Answer each Section in the respective answer sheet only.
 - 5) Answers written in the inappropriate sectional answer book will not be assessed in any case.
 - 6) Do not write anything on the blank portion of question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Attempt any five out of six:

(5×3=15)

- a) Enumerate steps of Experimental Method.
- b) Why should a student nurse study psychology?
- c) What is meant by the introspective method? What are its limitations?
- d) What should a nurse remember about the functioning of glands?
- e) What are personal motives?
- f) What are the 3 major laws of learning? Explain in short, each of the laws.

3. Attempt any three out of four:

(3×5=15)

- a) Explain approach-avoidance conflict.
- b) What is the importance of correct observation?
- c) How are attitudes formed?
- d) Explain the factors which have to be considered in analysing personality?

11304

SECTION - C

Solve any two out of Q. 4, 5, 6.

4. A student who has failed in an examination twice or thrice may argue, "Only crammers can pass such an examination".
- a) Name the defense mechanism. 2
 - b) Explain the mechanism in detail. 8
 - c) State the limitations of this defense mechanism. 5
5. a) Explain the relationship between emotions and health. 5
- b) Which emotions hamper healthy functioning of the body? 5
 - c) What should be the duty of a Nurse in dealing with patients who are irritable? 5
- a) Describe the psychological approach in nursing care. 5
- b) How would you function as a nurse in dealing with adolescents and chronically ill patients? 5
 - c) What is your concept of effective Nursing? 5
-

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Answer each Section in the respective answer sheet only.

5) Answers written in the inappropriate sectional answer book will not be assessed in any case.

6) Do not write anything on the blank portion of question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Attempt any five out of six:

(5×3=15)

- a) Mental Retardation.
- b) Physiology of emotion.
- c) Forgetting.
- d) Types of Frustration.
- e) Mental hygiene, principles for adolescence.
- f) Define I.Q. and write formula for calculation of I.Q.

3. Attempt any three out of four:

(3×5=15)

- a) Form perception.
- b) Factors influencing attention.
- c) Branches of Psychology.
- d) Non verbal tests of intelligence.

61303

SECTION - C

Solve any two LAQ out of Question No. 4, 5, 6.

4. Define attitude and write about formation of attitude.
 - a) Definition.
 - b) Formation of attitude.
 - c) Factors influencing the formation of attitude.
 5. What is motivation ? Explain biological motives.
 - a) Definition.
 - b) Classification of biological motives
 - c) Explanation of biological motives
 6. Define Emotion. Write about theories of Emotion.
 - a) Definition of Emotion.
 - b) Theories of Emotion.
 - c) Explanation of theories in brief.
-

61304

B.Sc. Nursing Examination, Nov/Dec-2007

PSYCHOLOGY

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Answer each Section in the respective answer sheet only.

5) Answers written in the inappropriate sectional answer book will not be assessed in any case.

6) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Answer the following (any five out of six) : (5×3=15)

- List any three advantages of the introspective method used in the study of psychology.
- What are defence mechanisms ? How do they help us ?
- State the three major laws of effective learning, giving one example each.
- Define attitudes.
- What do you understand by the term 'Mental hygiene' ?
- List any three factors affecting attention, giving one example each.

3. Answer the following (any three out of four) : (3×5=15)

- Make five suggestions that would help in the control of emotions.
- How is the study of psychology important in the field of nursing ?
- List five limitations of intelligence tests.
- What points need to be kept in mind when nursing sick children ?

Solve any two LAQ questions out of the following :

4. a) Define motive.
b) List the hierarchy of needs given by Maslow, with the help of Explain the place and importance of physiological drives in it with 2 examples.
c) List with examples, 5 sources of frustrations.
 5. a) Define learning.
b) Explain with 2 examples each any 4 factors which affect learning.
c) List 5 characteristics of learning.
 6. a) Define personality.
b) Explain any 4 methods used in assessing personality.
c) Explain any 2 factors that influence growth and development of personality with examples.
-

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION - B & SECTION - C

- Instructions: 1) All questions are compulsory.
2) The number to the right indicates full marks.
3) Draw diagrams wherever necessary.
4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

Attempt any five out of six :

(5×3=15)

- a) Explain in short components of Personality.
- b) Explain three distinct processes of Memory.
- c) Explain basic concept of Balance Theory of Attitude.
- d) Write three major Laws of Learning.
- e) What do you understand by Mental Hygiene ?
- f) Define :
 - 1) Variable
 - 2) Independent variable
 - 3) Dependent variable.

61304

3. Attempt any 3 out of 4

- a) What are different sources of Frustration ?
- b) Explain Law of Perceptual Organization.
- c) Write a note on Mental Hygiene in Adolescence.
- d) Explain "General Adaptation Syndrome" by Hans Selye.

SECTION - C

Solve any two out of Q. 4, 5, 6 :

- 4.
 - a) Define Emotion.
 - b) As a nurse, how can you control emotions ?
 - c) Explain any two theories of emotions in detail.
- 5.
 - a) Define Learning.
 - b) Explain nature/characteristics of learning.
 - c) What are the factors that contribute to effective learning ?

SECTION - B & SECTION - C

Instructions: 1) All questions are compulsory.

2) The number to the right indicates full marks.

3) Draw diagrams wherever necessary.

4) Do not write anything on the blank portion of the question paper.

If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION - B

2. Attempt any 5 out of 6 :

(5×3=15)

- a) List various levels of mental retardation.
- b) Why defense mechanisms are important for individuals ?
- c) Which are various ways to reduce distraction of attention ?
- d) Explain 'Behaviourism'.
- e) Explain Long Term Memory.
- f) Explain the term 'Aptitude'.

3. Attempt any 3 out of 4 :

(3×5=15)

- a) List characteristics of a mentally healthy person.
- b) Explain Maslow's Self-Actualization theory.
- c) List Internal and External changes in emotion.
- d) How a student nurse can make use of knowledge of psychology while dealing with patients ?

P.T.O.

61304

SECTION - C

Solve any 2 L.A.Q out of 4, 5, 6.

4. a) Define Psychology.

b) Explain method of observation in psychology.

c) Give details of following branches of psychology :

– Counselling psychology

– Social psychology.

– Industrial psychology

– School psychology.

5. a) Define motivation.

b) Explain various types of conflict in short.

c) Explain various types of social motives..

6.. a) Define memory.

b) Explain Atkinson and Shiffrin's model of memory.

c) Explain Mnemonics in detail.

First P.B. Basic Nursing Examination, May/June 2010
PSYCHOLOGY

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks: 60

SECTION-B & SECTION-C

- Instructions :*
- 1) All questions are compulsory.
 - 2) The number to the right indicates full marks.
 - 3) Draw diagrams wherever necessary.
 - 4) Do not write anything on the blank portion of the question paper. If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION-B

2. Answer the following (any 5 out of 6) :

(5×3=15)

- a) What are the characteristics of learning ?
- b) What do you understand by Mental Hygiene ? Explain its major objectives.
